09 Cost of Manual Document Processing

10 Compliance and Risk

THE FUTURE OF CREW ONBOARDING

Transforming crew readiness
through intelligent automation

**FASTER
ONBOARDING**

**BETTER
COMPLIANCE**

**LOWER
COSTS**

**HAPPIER
CREW**

AI-POWERED. COMPLIANT. BUILT FOR MARITIME.

MANUAL PROCESSING CREATES OPERATIONAL BOTTLENECKS

Manual document review is slow, inconsistent, and resource-intensive—putting crew readiness and voyage schedules at risk.

SLOW ONBOARDING

3–10 days average
processing time

HIGH RISK OF ERRORS

Manual data entry
leads to mistakes

HIGH OPERATING COST

Thousands of labor
hours every month

COMPLIANCE EXPOSURE

Missing, expired, or
invalid documents

ONBOARDING DELAYS IMPACT OPERATIONS

3–10 DAYS

Average delay per crew member

\$100K+

Potential cost impact
per delayed sailing

Every day of onboarding delay increases cost,
compliance risk, and **operational friction**.

MOST DELAYS HAPPEN BEFORE CREW REACHES THE VESSEL

Onboarding delays impact voyage schedules, costs, and operational readiness.

FASTER ONBOARDING STARTS WITH SMARTER DOCUMENT PROCESSING.

Every day saved in onboarding creates value across the business.

ONE WORLD. COUNTLESS DOCUMENTS.

Crew and documents come from everywhere.
Complexity is everywhere.

Different countries, languages, formats, and compliance requirements create massive variations in every onboarding.

200+
Nationalities

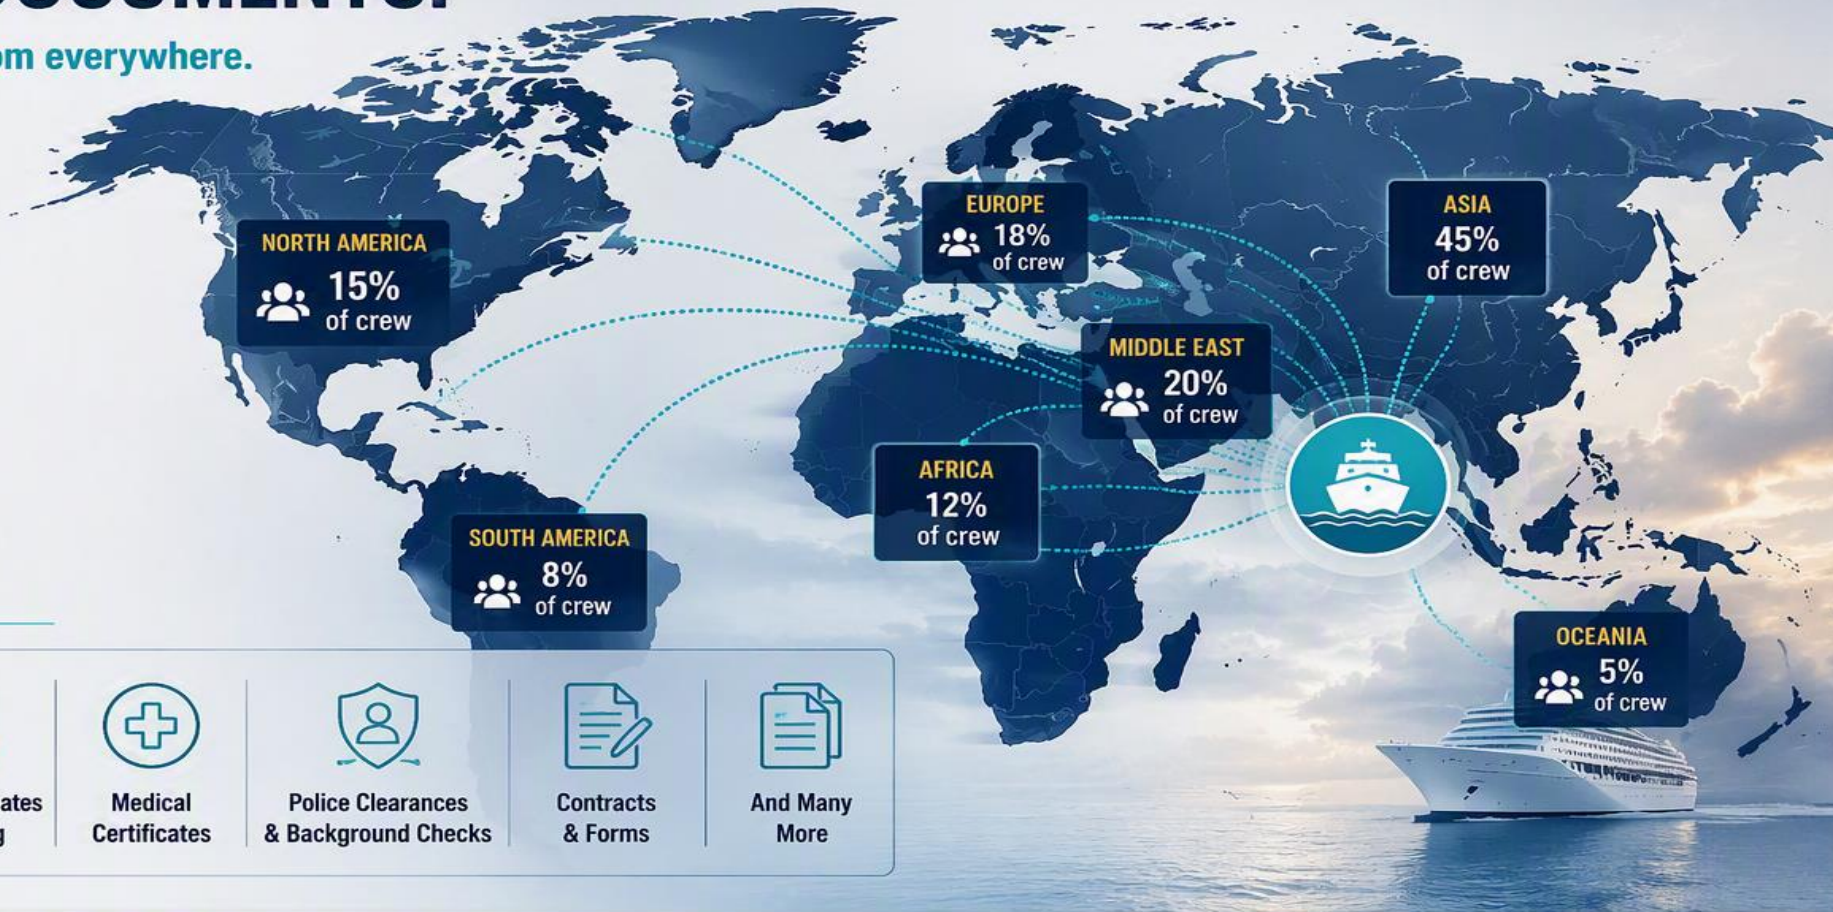

150+
Countries

Hundreds
of Document Types

Multiple
Languages

DOCUMENT VARIATIONS INCLUDE:

Passports
& Visas

Seaman Books
& IDs

STCW Certificates
& Training

Medical
Certificates

Police Clearances
& Background Checks

Contracts
& Forms

And Many
More

ONE ONBOARDING JOURNEY. INFINITE COMPLEXITY.

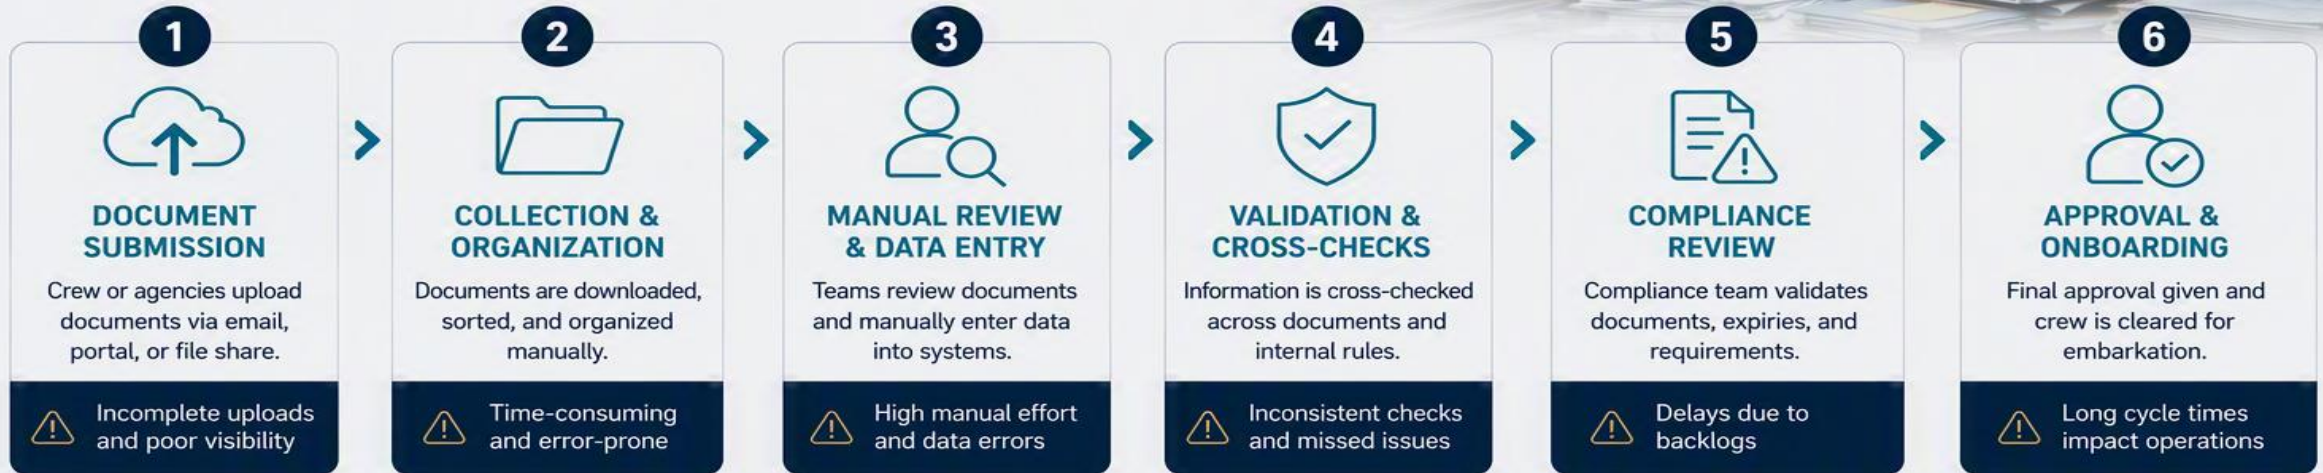

Managing this complexity manually
is costly, slow, and risky.

TODAY'S CREW ONBOARDING PROCESS

A manual, fragmented process with too many handoffs, delays, and risks.

! Multiple teams. Multiple systems. Too much manual work.

MANUAL PROCESSING TIME: 3–10 DAYS PER CREW MEMBER

Delays increase costs, disrupt schedules, and reduce operational flexibility.

**3–10
DAYS**

Average processing time per crew

**20–40
MINUTES**

Manual review time per crew

**20–40
DOCUMENTS**

Per crew member on average

**\$20–\$40
PER CREW**

Manual processing cost (fully loaded)

**HIGH
RISK**

Compliance, data accuracy & delays

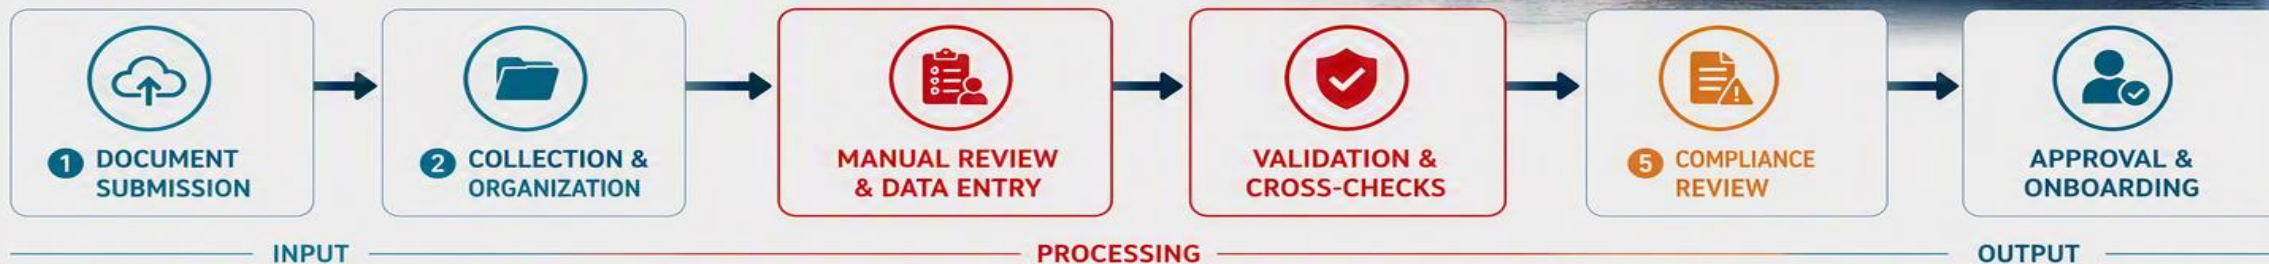

MANUAL. FRAGMENTED. RISKY.

TODAY'S PROCESS CAN'T SUPPORT TOMORROW'S GROWTH.

BOTTLENECKS SLOW CREW READINESS

Analysis of onboarding cycle shows that document review and validation cause the most delays.

TIME SPENT PER STAGE

% of total onboarding time

3-10 DAYS
Total Onboarding Processing Time

60% OF DELAYS OCCUR IN MANUAL REVIEW & VALIDATION

Human-intensive, repetitive work creates the biggest bottleneck.

BUSINESS IMPACT

- Higher operating costs**
More hours, more people, more cost
- Delayed deployments**
Voyage schedules and crew changes impacted
- Compliance exposure**
Expired or missing documents increase risk
- Poor crew experience**
More follow-ups, rework, and frustration

KEY TAKEAWAY

Document review and validation are the primary bottlenecks.
Automating these steps drives the greatest impact.

MANUAL CREW DOCUMENT MANAGEMENT COSTS ENTERPRISE CRUISE OPERATORS OVER \$2M ANNUALLY

Manual collection, validation, follow-up, correction, and maintenance of crew documents consume over 35,000 labor hours every year.

28+
SHIPS

~35,000 CREW
MANAGED ANNUALLY

ANNUAL DOCUMENT PROCESSING COST BREAKDOWN

DOCUMENT REVIEW & VALIDATION

Review, verify, and validate crew documents for compliance

\$900K
(45%)

DATA ENTRY & RECORD UPDATES

Manual data entry and system updates across multiple systems

\$500K
(25%)

MISSING DOCUMENT FOLLOW-UPS

Chasing, reminders, and collection of outstanding documents

\$300K
(15%)

REWORK & CORRECTIONS

Fixing errors, duplicate work, and document corrections

\$200K
(10%)

FILING, ARCHIVING & REPORTING

Document filing, archiving, and compliance reporting

\$100K
(5%)

All costs reflect labor associated with manual document processing only.

DOCUMENT PROCESSING IMPACT (ANNUAL)

35,000+
LABOR HOURS

Spent on manual document processing activities

17

FULL-TIME EMPLOYEES

Equivalent to 17 FTEs
(35,000 ÷ 2,080 hours)

\$57

PER CREW MEMBER

\$2,000,000 ÷ 35,000 crew members

ENTERPRISE ASSUMPTIONS

35,000

Crew managed annually

525,000

Documents processed annually
(15 per crew)

4 MINUTES

Manual handling time per document

\$40 / HOUR

Fully loaded labor rate

\$2.0M+

ANNUAL COST OF MANUAL DOCUMENT PROCESSING

This is the total annual labor cost to manually process crew documents for a 28+ ship cruise operator.

KEY TAKEAWAY

Manual document processing consumes over 35,000 hours and costs **more than \$2 million annually**—resources that could be better used to support crew and fleet operations.

Automation eliminates manual work, reduces risk, and delivers measurable cost savings.

COMPLIANCE FAILURES CAN BE COSTLY

Manual processes increase the risk of expired, missing, or invalid documents—leading to delays, fines, and operational disruption.

“

Non-compliance can lead to **port detention**, **hefty fines**, and **reputational damage**.

Prevention is always cheaper than remediation.

TOP COMPLIANCE RISKS IDENTIFIED

**1,247****EXPIRED CERTIFICATES**

Were expired at the time of review

**892****MISSING DOCUMENTS**

Required documents not submitted

**456****VISA ISSUES**

Invalid, expired, or incorrect visas

**342****MEDICAL & VACCINATION**

Missing or expired medical records

POTENTIAL COST IMPACTS

**Port detention & delays**

Lost revenue, itinerary disruption

\$50K – \$250K
per incident**Fines & penalties**

Regulatory & immigration fines

\$10K – \$100K
per violation**Crew change disruption**

Rebooking, travel, and hotel costs

\$5K – \$50K
per crew**Reputation & brand impact**

Customer trust and brand value

Long-term
unmeasurable cost

HIGH RISK OF NON-COMPLIANCE

Issues like these can delay crew joining the vessel and trigger compliance violations.

COMPLIANCE IS CRITICAL.
VISIBILITY IS THE FIRST STEP.

Real-time visibility and automated validation reduce risk and keep your operations moving.
