

POSMATE Business Presentation

- Venusgeo Solutions Inc

Pamworks Artificial Intelligence
Consultancies Co LLC

The infographic is set against a blue background with a cruise ship deck scene. At the top, a large cruise ship is shown on the water. Below it, a waiter in a blue uniform is serving a couple sitting on a lounge chair. The infographic is divided into several horizontal sections, each with a circular icon and a title. The sections are: 1. Elevated Guest Experience (icon of a waiter serving a couple), 2. Revenue Growth (icon of a cash register and a dollar sign), 3. Operational Efficiency (icon of a computer monitor and a printer), 4. Unified Commerce (icon of a person and a laptop), 5. Lower Costs (icon of a dollar sign and a crossed-out dollar sign), 6. Enhanced Security (icon of a shield and a padlock), and 7. Future Ready (icon of a smartphone and a person). The background also features a smaller cruise ship in the distance and a lounge chair in the foreground.

Modernizing
CRUISE SHIP POS
Terminal POS to Mobile POS

Elevated Guest Experience
Anywhere, Anytime Ordering & Payments

Revenue Growth
Upsell Excursions, Dining, Retail & Spa

Operational Efficiency
Faster Service, Less Waiting

Unified Commerce
Integrated Systems & Real-Time Data

Lower Costs
Reduced Hardware & IT Spend

Enhanced Security
Encrypted & PCI Compliant

Future Ready
Next-Gen Innovation & Flexibility

09 Company Overview

10 Thank you

Executive summary

The greatest strategic value comes from transforming the fixed terminal POS, from a transaction system into a digital engagement platform, that supports personalized experiences and new revenue opportunities across the fleet.

Transforming Onboard Guest Experience

- 01 POSMATE enables anywhere order taking. Eliminates queue to punch orders in Bars and Restaurants
- 02 Eliminates queue to punch orders in Bars, Dining rooms, Retail shops, Photo Galleries and Entertainment
- 03 Crew has more time to engage with the guest to talk about the product that is being sold and also upsell.

Revenue Uplift Across Revenue Centers

- 01 Faster service cycles increase order frequency, in high-volume revenue centers like bars and dining.
- 02 Crew can upsell bar drinks, dining specialty items, shore excursions, spa services, and retail bundles anywhere on the ship.
- 03 Integrated promotions and personalized offers drive higher average check value and onboard spend per passenger.

Higher the satisfaction

Higher the spend

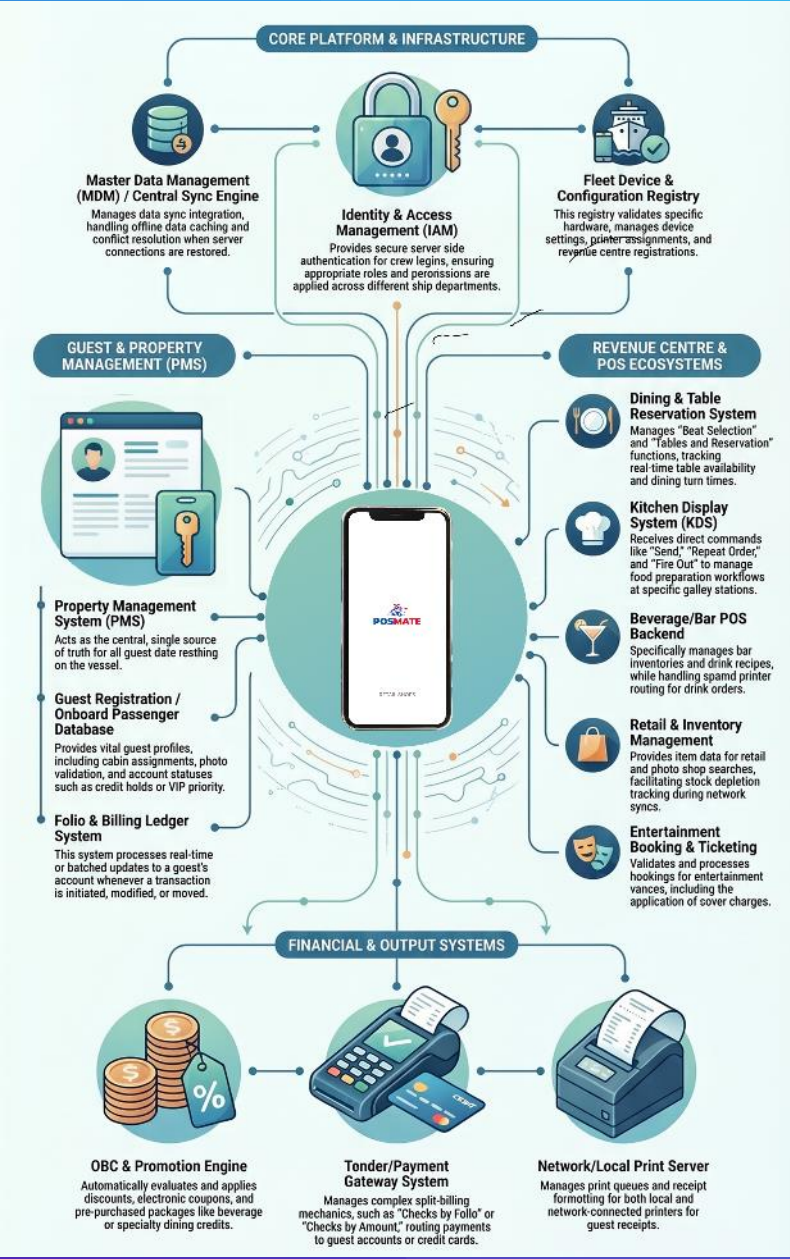

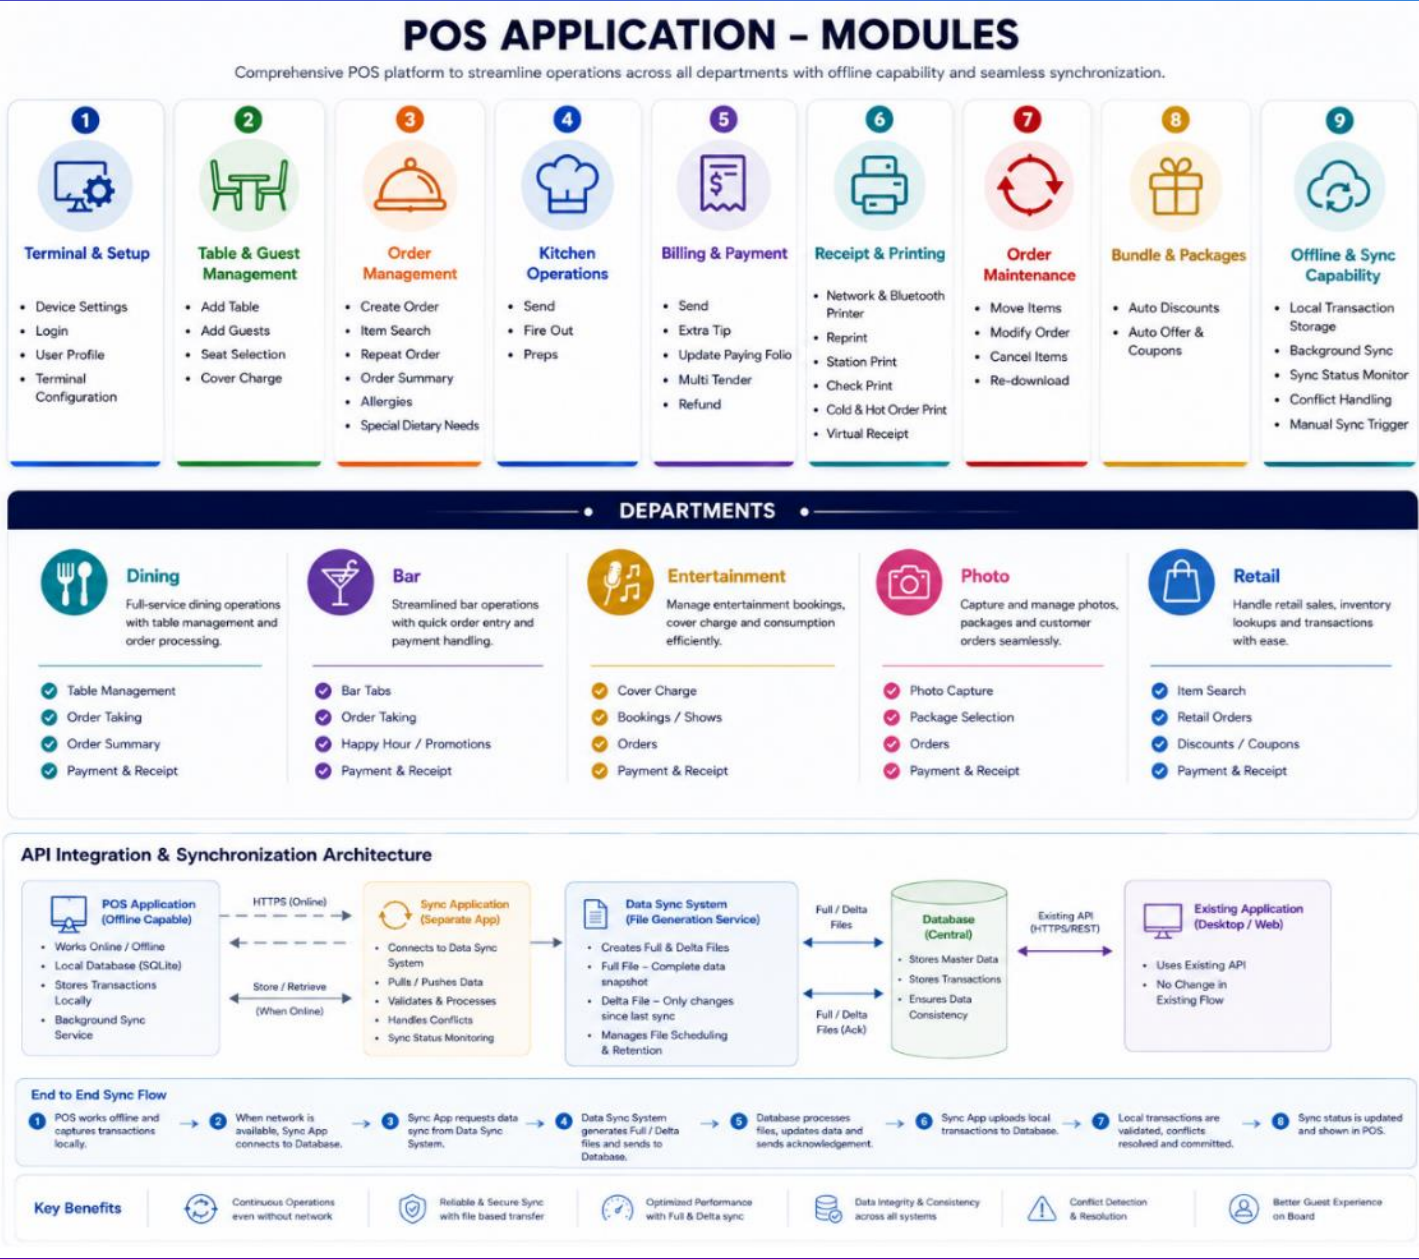

Operations Efficiency and Throughput Gain

- 01 30–40% faster service cycles . Orders flows instantly from POSMATE to kitchen, bars, fulfillment systems and removing manual entry and delays. 50% reduction in manual reconciliation
- 02 40–60% reduction in queue times . POSMATE reduces congestion at fixed terminals, improving throughput during peak times (sail-away, sea days, show intermissions) . 25% fewer order errors
- 03 Crew can serve 2–3× more guests per hour .Crew mobility improves productivity and reduces dependency on stationary hardware. Higher tips due to faster service

Lower Total Cost of Ownership

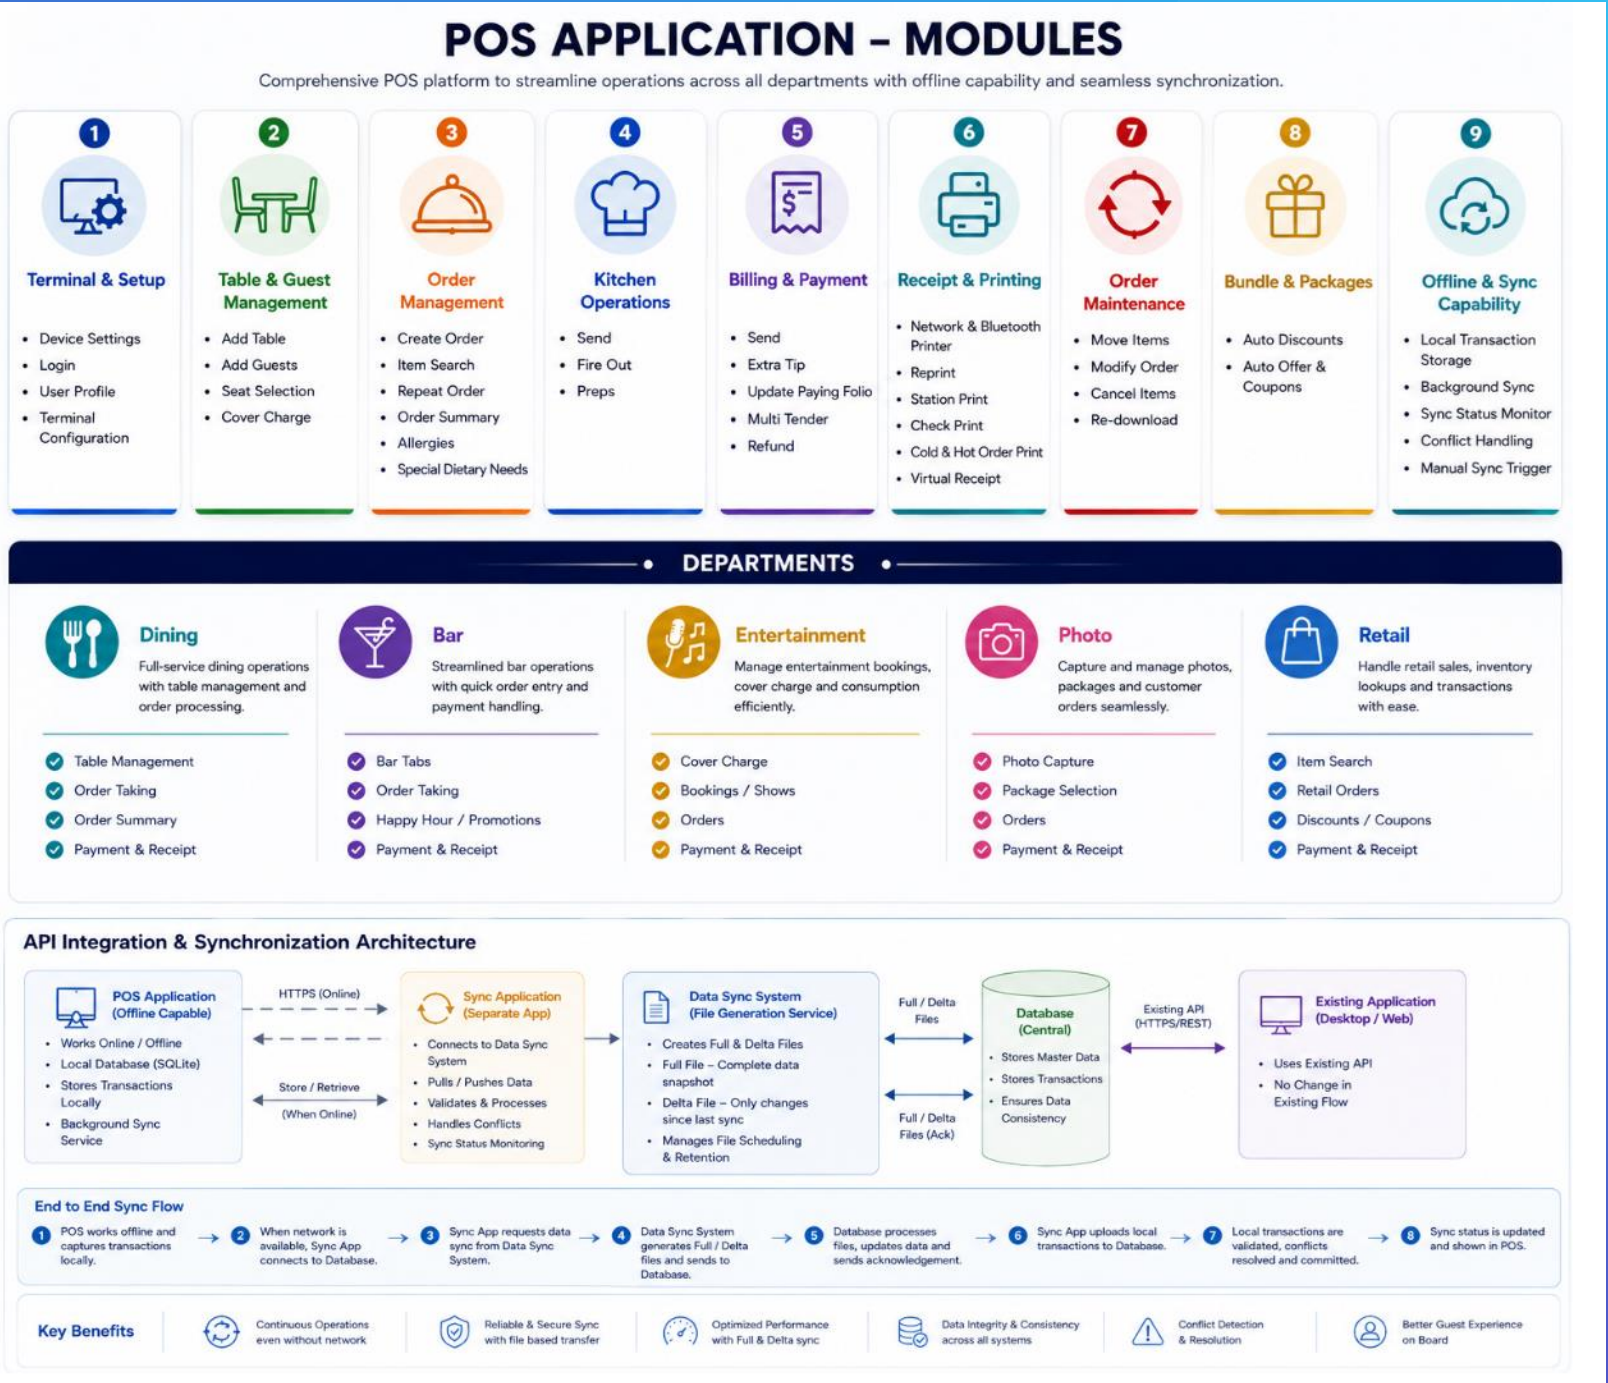

- 01 Lower hardware footprint compared to traditional terminals.
- 02 Scalable architecture supporting fleet-wide rollout without heavy infrastructure investment.
- 03 Reduce maintenance overhead and accelerates feature deployment

POSMATE Modernization Overview

Modernization Financial Model

- 01 Revenue per ship -uplift
- 02 Sensitivity ranges – uplift
- 03 Incremental revenue per ship
- 04 Incremental revenue fleet wide
- 05 Cost model fleet wide
- 06 Fleet wide net benefit sensitivity
- 07 ROI fleet wide
- 08 ROI pay back fleet wide
- 09 Executive summary

Modernization Financial Model Fleet wide

01 Revenue per ship - uplift

Department	Baseline revenue
Bar	\$10 M - \$12 M
Dining	\$6 M - \$8 M
Retail	\$5 M - \$7 M
Photo	\$1.5 M - \$2.5 M
Entertainment	\$2 M - \$3 M
Total	\$24 M - \$32.5 M

02 Sensitivity Ranges for uplift

Department	Low	Med	High
Bar	8 %	12 %	14 %
Dining	6 %	10 %	12 %
Retail	8 %	12 %	15 %
Photo	10 %	15 %	18 %
Entertainment	6 %	9 %	10 %

03 Incremental Revenue/ship

Sensitivity	Incremental Revenue
Low case	\$ 1.86 M
Med case	\$ 3.12 M
High case	\$ 4.44 M

04 Incremental Revenue Fleet

Sensitivity	Per Ship uplift	Fleet uplift
Low case	\$ 1.86 M	\$ 53.9 M
Med case	\$ 3.12 M	\$ 90.5 M
High case	\$ 4.44 M	\$ 128.8 M

05 Cost Model Fleet wide

Modernization Cost	Incremental Revenue
One time build cost	\$ 2.4 M
Fleet wide rollout cost	\$ 11.45 M
Fleet wide annual OpEx	\$ 3.2 M

06 Fleet wide net benefit (sensitivity)

Sensitivity	Fleet revenue uplift	Annual OpEx	Net annual benefit
Low case	\$ 53.9 M	\$ 3.2 M	\$ 50.7 M
Med case	\$ 90.5 M	\$ 3.2 M	\$ 87.3 M
High case	\$ 128.8 M	\$ 3.2 M	\$ 125.6 M

07 Fleet wide ROI

Sensitivity	ROI
Low case	366 %
Med case	630 %
High case	907 %

08 Payback

Sensitivity	Payback
Low case	6 – 8 months
Med case	4 – 6 months
High case	2 – 6 months

09 Executive Summary

Fleet uplift ranges from \$ 54 M - \$ 129 M

Net benefit ranges from \$ 51 M - \$ 126 M

ROI ranges from \$ 51 M - \$ 126 M

Payback occurs 2 – 8 months

POSMATE Modernization SWOT

Strengths

- Enhanced Guest Experience
- Increased Revenue Opportunities
- Operational Efficiency
- Real-Time Data Visibility
- Reduced Hardware Dependency

Weakness

- Upfront Investment
- Training Requirements
- Wireless Connectivity Strength
- Device Management Complexity
- Integration Complexity

Opportunities

- Digital Guest Journey
- Digital Operations Journey
- New Revenue Streams
- Expand Loyalty Programs
- Future Digital Expansion

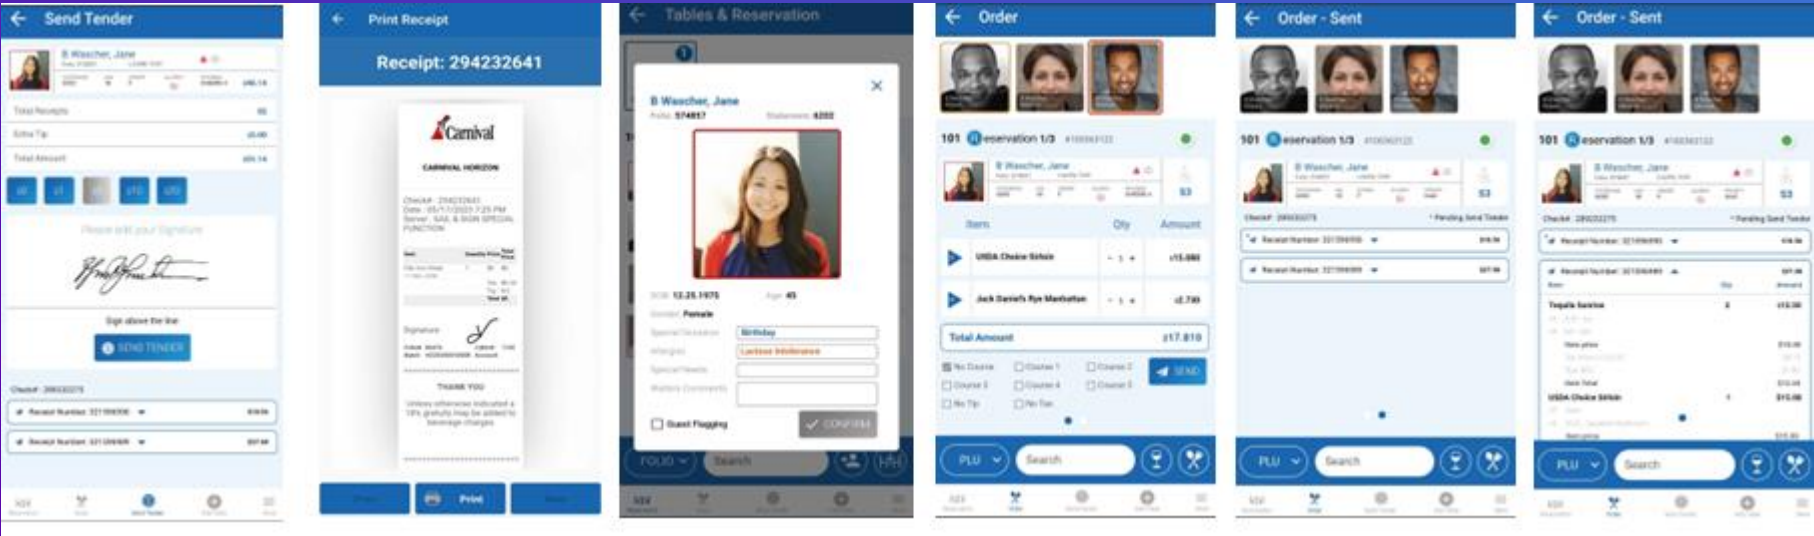

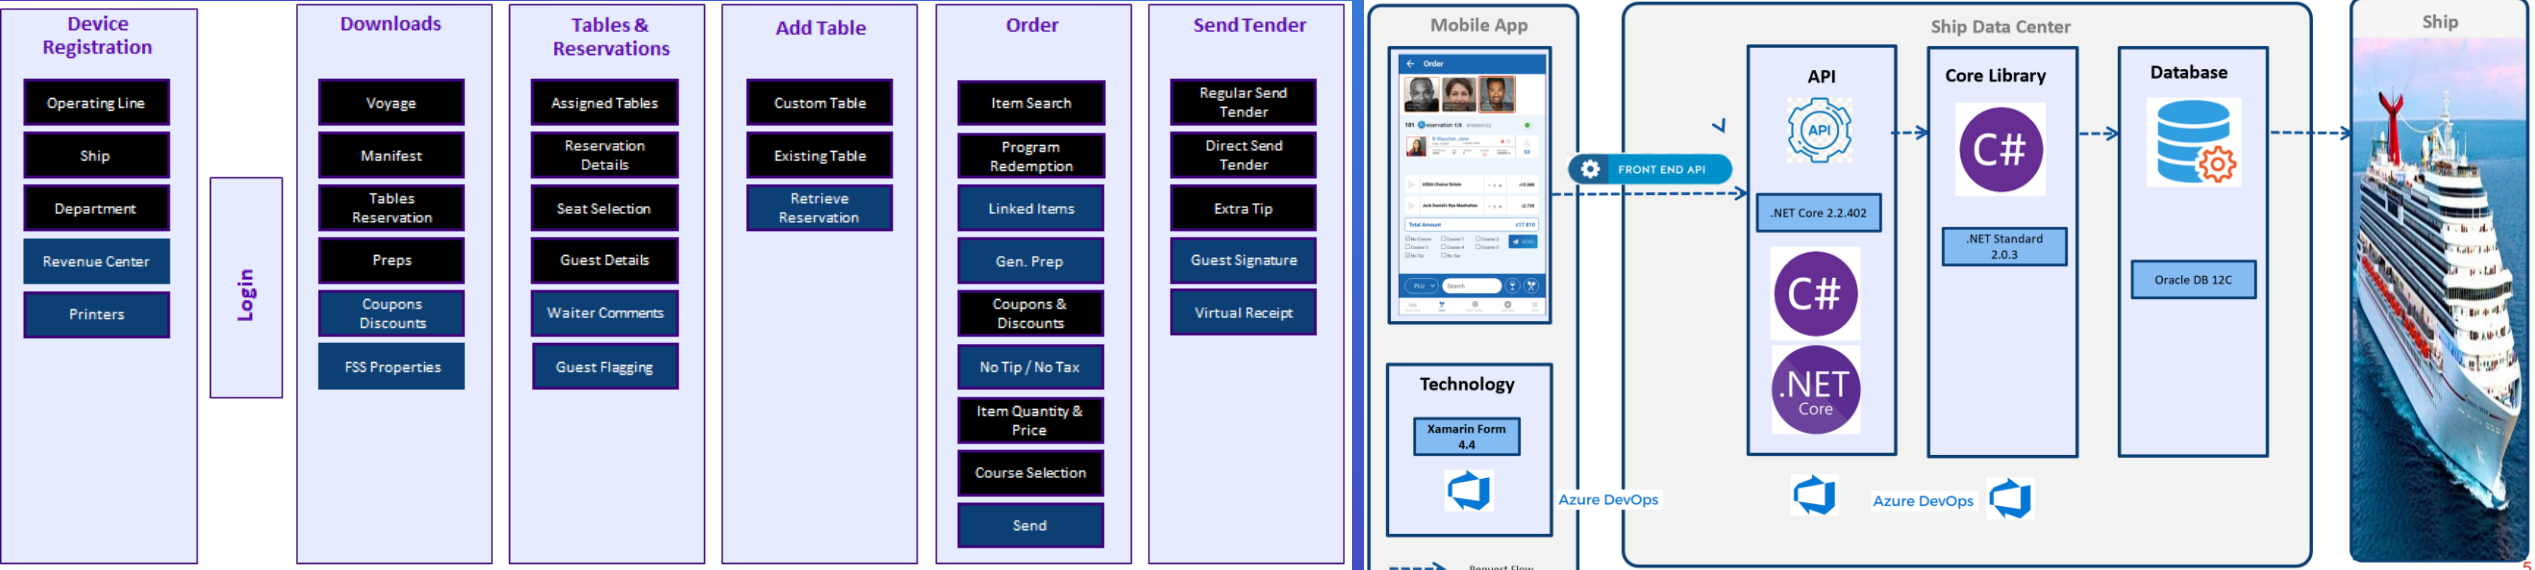

Threats

- Data Sync Risks
- Shipboard Wi-Fi Connectivity Risks
- Regulatory Compliance
- Technology Upgrades
- Crew Usability Adoption
